

The Dangers of Distracted Driving

Driver distraction is a factor in more than 70% of accidents.

That's more than 4,300 crashes every day.

What's more, 28% of all crashes in the U.S. each year are caused by drivers talking on cell phones and texting.*

Don't be a statistic.

- Be familiar with your vehicle's controls.
- Adjust mirrors, seat and radio before you drive off.
- NEVER use electronic devices — except in an emergency.
- Don't engage in distracting conversations.
- Always wear your seatbelt.
- Don't pick up or reach for a dropped or loose object.
- Avoid distractions that impair your ability to operate a vehicle safely, such as eating, drinking and smoking.

Bottom line — pay attention to the road ahead, stay focused and expect the unexpected.
